DUTCH BULBS

OFFERED FOR SALE BY

J. J. Grullemans & Sons,

West-End-Nurseries.

ESTABL. 1854.

LISSE-HOLLAND.

PRINTED BY MULDER, LEIDEN (HOLLAND).

West-End-Nurseries. **Lisse-Holland 1907.**

Gentlemen,

We have much pleasure in presenting you our Bulb-Book for 1907, the **largest** and **most complete** issued by any Dutch Firm.

Our yearly growing bussiness, shows that our efforts to see orders executed with all possible speed, and with best class bulbs and plants **only**, are crowned with success.

To Firms with whom we had up to present no dealings we shall be glad to furnish them with such references which will give them sufficient confidence, that their orders if placed with us, are in good hands. In recommending our bulbs to the **Wholesale Trade** we wish to assure our customers that they will be well pleased when receiving our goods.

No doubt we have put our prices so that in most cases you will find them correct Should you however have a lower offer from an other reliable Dutch House, we shall be glad to be informed, and we promise to do all what is posible to meet you.

Lisse as you may be aware is now the leading center of the Bulb Trade.

Trusting we may be favored with a continuance of your esteemed commands.

Yours respectfully,

J. J. GRULLEMANS & SONS.

COMPLAINTS.

No complaints can be entertained unless made on **receipt** of the goods, and we can not take any responsibility as to their flowering as so much depends upon their treatment, but every precaution is taken to sent nothing but first sized well matured bulbs such as will under ordinary circumstances produce the very finest flowers and give the utmost satisfaction.

Early orders are respectfully solicited.

Special terms of payement.

To parties with satisfactory references we allow Credit until the 1st of March 1908.

If longer Credit is required, please say so when ordering. In case we do not consider a customer trustworthy for ordinary credit we can demand payement and any time.

ACCOUNTS, PAID WITHIN.

1 month from date of invoice are entitled to 5% discount.
2 months „ „ „ „ „ „ „ 4% „
3 „ „ „ „ „ „ „ „ 3% „

☞ *Accounts not paid within 12 months after date of invoice will then be drawn against atsight.*

Orders from unknown correspondents must be accompained by satisfactory references or one-half the amount of bill. Belance of amount to be paid on arrival of goods, such payment are subjected to 5% discount on the full amount of the account.

Terms.

All bulbs sold subject to being unsold on receipt of order.

Emballage or Packing materials will be charged at costprice.

All shipments made at purchasers risk and account.

Insurance will be effected if desired. **Shipping instructions** should be sent with each order, and will be followed carefully, otherwise we will use our best judgment as to route.

NOTICE.

25 roots will be charged at 100 rate.

250 at 1000 rate.

T[illegible]grams should be addressed:

Grullemans, Lisse, Holland.

If wiring, goods will leave with the next steamer from Rotterdam or Amsterdam.

Double Chrysanthemum flowered Anemones.

The Chrysanthemum flowered Anemones are absolutely distinct from the ordinairy double Anemones, the petals are all of the same form and beautifully imbricated, the plants are of very large size and produce an immense quantity of grand flowers. Highly recommended.

Paeonia flowered Dahlia's.

New Extra.

Cable words.

p. 100. s. d. — p. 1000. s. p.

This new race of Dahlia's was in 1906 for the first time shown at a Royal Horticultural Meeting in London and created quite a sensation. The flowers are large and well expanded and of a most gracefull form, and we surely do not say too much if we say they are the finest Dahlia's ever offered to the public.

Queen Wilhelmina, pure white, fine form, very floriferous.
Prince Henry, crimson red, strong grower, semi-double flowers, 1st class Certificate Amsterdam 1905.
Glorie of Baarn, light rose, double, very large flowers
Pius X, creamy yellow with salmon colored center, single flower with two rows of petals, very excentric.
Hollandia, bright rose, the flowers of this variety have very long stems, for cutblooms no better.
Baron G. de Grancy, creamy white, 1ste class Certificate very floriferous.
Queen Emma, very large flower, bright salmon color shaded lilas, extra fine.
Germania, dark red, very large flowers a grand variety.
Paul Kruger, white flushed red, a vigorous grower.
Dr. K. W. v. Gorkum, white shaded rose, compact plant, very good.
King Leopold, yellow changing to white, grows two yards high a grand variety.
Solfaterre, carminred with yellow base, highly recommended.

For dilivery autumn 1907 strong clumps
1/6 each, per 100 80/—.

Rooted cuttings can be supplied after the 15th of May at the price of 60/— per 100 including all the above mentioned varieties.

Galanthus Elwesi.

DUTCH GROWN BULBS.

Finest in Holland.

We import every year a big lot of these **Galanthus** from Turkye to
planted on our own grounds, with the results that we have been able to sup
the finest and largest bulbs in the trade.

It was by no means rare to find amongst last years, bulbs as big a
medium sized tulip.

On account of the increased demand we have much pleasure to inf
our customers that we have planted for this season a fine lot, and shal
glad to quote **prices and send samples free on demand.**

Samples may be had from the 15th of June.

Gladiolus Hollandia.

A new Brenchlyensis variety.

A free growing variety with flowerspikes rather longer than those of Gladiolus Brenchlyensis.

The flowers are large and well opened and of exceptionally good form, even the smaller bulbs often produce **from 30 to 40 flowers on a single spike.**

The salmon shade rose color, makes it very distinct and delicate.

Planted in open ground. it is sure to give satisfaction, while as cutflower it is certain to find a ready sale.

per 100 Sh. 7 —; per 1000 Sh. 65.

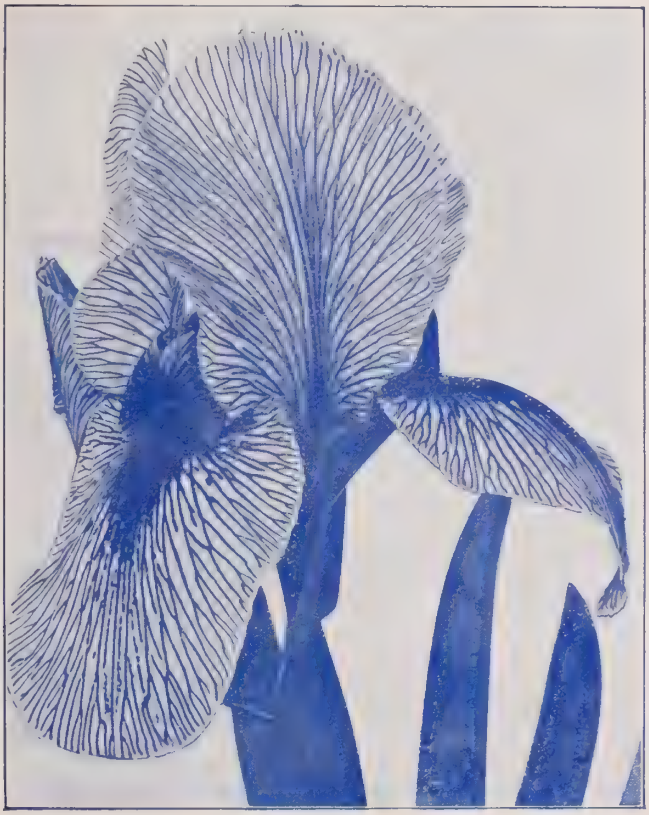
Novelties 1907.



Flower of a Regelio-Cyclus Iris.

Regelio-Cyclus (onco-Regelia) Iris.

Awarded on the different London shows with first class Certificates and Awards of merit

This beautiful new race of Iris, flowers and cultivates with great eassiness, comparing with the Onocyclus Iris (Iberica, Lorteti etc.) who are most difficult to cultivate. The flowers are of the same size of ordinairy Onocyclus, and of satiny white, rose, braunish or violet ground, and are veined black. The flowerstems are strong and of good length, and carry generally three to four flowers, while from three to four flowerstems on a plant may be expected.

Aspasia, Very showy flower, dark violet purple, petals mahogany brown, beautifully spotted, grand variety . . . . each 6 —

Charon, F. C. Certificate London May 17. '04. Color dark brwnn veined black, extra . . . . each 4 6

Eurydice, Grand variety, with lila rose flowers, drooping petals on a lilas ground, veined dark violet. . . . . each 5 —

Hebe, Free flowering variety, with dark indigo-blue blooms on a silvery netted ground . . . . each 3 6

Hecate, Of this beautiful variety are the upper petals soft rosy white, the lower petals on a silvery ground are veined brown and bronze, extra each 3 6

Hera, strong grower with flowers of a beautiful ruby red color bronze blue shaded . . . . each 3 6

Hesperia, Very large petals, lower part of flower silvery white veined chocolate brown, very delicate, extra. . . . . each 3 6

Iphigenia, F. C. Certificate London May 17, '04, Grand velvety purple blooms of which the lower part of the petals are greish white, spotted brown each 5 —

Ises, Award of merit London May 17. '04. Very large, with grand flowers of a rubyred selfcolor with gray and purple veins, easely grown. This variety may be called on of the most beautiful of this new race . . . each 3 6

Psyche, Award of merit London May 17. '04. Flowers are on a silvery white ground, veine brown, a superb variety, highly recommended . . each 4 6

Sirona, Dark lilas violet, with short but broad petals which on a greyish white ground are blackish veined. Each petal bears a black spot in the middle each 3 6

Thetis, Something like Charon with strong upholding flower petals. The lower petals are mahogany veined brown and spotted on a yellowish ground each 4 6

We need not say that recommendation is almost unneccesary for these Iris, where ever money has been spent on flowers we feel sure that it never will have been spent better than on these.

	Rosea, very strong, (Crowns for forcing)	5 —	40 —

NOTICE.

The Dutch forcing crowns we guarantee to give the greatest satisfaction but they should be forced **after** January.

We must advice our customers to order early and to lay the crowns immedeately in, the roots well covered, leaving the crowns fully exposed to the air, so, that the frost can freely reach them.

The flower after this treatment will be equal in size and quality to those produced by the best German or Berlin Crowns.

Convalaria Fortin Clumps.

Per 100 40/–.

We offer the above for the first time and although the price is rather high no grower will feel sory to have paid this extra money, for one must first have seen a clump of these in bloom to be convinced what a tremendous difference there is between these and an clump of the ordinairy old Dutch variety.

Only a limited quantity to offer.

DUTCH BULBS

OFFERED FOR SALE BY

J. J. Grullemans & Sons,

West-End-Nurseries.

ESTABL. 1854.

LISSE-HOLLAND.

PRINTED BY MULDER, LEIDEN (HOLLAND).

West-End-Nurseries. **Lisse-Holland 1908.**

Gentlemen,

We have much pleasure in presenting you our Bulb-Book for 1908, the **largest** and **most complete** issued by any Dutch Firm.

Our yearly growing bussiness, shows that our efforts to see orders executed with all possible speed, and with best class bulbs and plants **only,** are crowned with success.

To Firms with whom we had up to present no dealings we shall be glad to furnish them with such references which will give them sufficient confidence, that their orders if placed with us, are in good hands. In recommending our bulbs to the **Wholesale Trade** we wish to assure our customers that they will be well pleased when receiving our goods.

No doubt we have put our prices so that in most cases you will find them correct. Should you however have a lower offer from an other reliable Dutch House, we shall be glad to be informed, and we promise to do all what is posible to meet you.

Lisse as you may be aware is now the leading center of the Bulb Trade.

Trusting we may be favored with a continuance of your esteemed commands.

Yours respectfully,

J. J. GRULLEMANS & SONS.

COMPLAINTS.

No complaints can be entertained unless made on **receipt** of the goods, and we can not take any responsibility as to their flowering as so much depends upon their treatment, but every precaution is taken to sent nothing but first sized well matured bulbs such as will under ordinary circumstances produce the very finest flowers and give the utmost satisfaction.

Early orders are respectfully solicited.

Special terms of payement.

To parties with satisfactory references we allow Credit until the 1st of March 1908.

If longer Credit is required, please say so when ordering. In case we do not consider a customer trustworthy for ordinary credit we can demand payement and any time.

ACCOUNTS, PAID WITHIN.

1 month from date of invoice are entitled to 5% discount.
2 months „ „ „ „ „ „ „ 4% „
3 „ „ „ „ „ „ „ „ 3% „

☞ *Accounts not paid within 12 months after date of invoice will then be drawn against atsight.*

Orders from unknown correspondents must be accompained by satisfactory references or one-half the amount of bill. Belance of amount to be paid on arrival of goods, such payment are subjected to 5% discount on the full amcunt of the account.

Terms.

All bulbs sold subject to being unsold on receipt of order.

Emballage or Packing materials will be charged at costprice.

All shipments made at purchasers risk and account.

Insurance will be effected if desired. **Shipping instructions** should be sent with each order, and will be followed carefully, otherwise we will use our best judgment as to route.

NOTICE.

25 roots will be charged at 100 rate.
250 at 1000 rate.
Telegrams should be addressed:
Grullemans, Lisse, Holland.

If wiring, goods will leave with the next steamer from Rotterdam or Amsterdam.

Paeonia flowered Dahlia's.

New Extra.

Cable words.

This new race of Dahlia's was in 1906 for the first time shown at a Royal Horticultural Meeting in London and created quite a sensation. The flowers are large and well expanded and of a most gracefull form, and we surely do not say too much if we say they are the finest Dahlia's ever offered to the public.

Queen Wilhelmina, pure white, fine form, very floriferous.
Prince Henry, crimson red, strong grower, semi-double flowers, 1st class Certificate Amsterdam 1905.
Glorie of Baarn, light rose, double, very large flowers.
Pius X, breamy yellow with salmon colored center, single flower with two rows of petals, very excentric.
Hollandia, bright rose, the flowers of this variety have very long stems, for cutblooms no better.
Baron G. de Grancy, creamy white, 1ste class Certificate very floriferous.
Queen Emma, very large flower, bright salmon color shaded lilas, extra fine.
Germania, dark red, very large flowers a grand variety.
Paul Kruger, white flushed red, a vigorous grower.
Dr. K. W. v. Gorkum, white shaded rose, compact plant, very good.
King Leopold, yellow changing to white, grows two yards high a grand variety.
Solfaterre, carminred with yellow base, highly recommended.

Gladiolus Hollandia.

A new Brenchlyensis variety.

A free growing variety with flowerspikes rather longer than those of Gladiolua Brenchlyensis.

The flowers are large and well opened and of exceptionally good form, even the smaller bulbs often produce **from 30 to 40 flowers on a single spike.**

The salmon shade rose color, makes it very distinct and delicate. Planted in open ground, it is sure to give satifaction, while as cutflower it is certain to find a ready sale.

Noveltíes, Hardy Iris

Awarded on the different London shows with first class Certificates and Awards of merit

This beautiful new race of Iris, flowers and cultivates with great eassiness, comparing with the Onocyclus Iris (Iberica, Lorteti etc.) who are most difficult to cultivate. The flowers are of the same size of ordinairy Onocylus, and of satiny white, rose, braunish or violet ground, and are veined black. The flowerstems are strong and of good length, and carry generally three to four flowers, while from three to four flowerstems on a plant may be expected.

Cable words.

Aspasia, Very showy flower, dark violet purple, petals mahogany brown, beautifully spotted, grand variety. . . . . . each 1.50

Charon, F. C. Certificate London May 17. '04. Color dark brown veined black, extra . . . . each 1.40

	„ **verticulatum**	—.90	7.20
	Rosea, very strong, (Crowns for forcing	2.40	22.—

NOTICE.

The Dutch forcing crowns we guarantee to give the greatest satisfaction but they should be forced **after** January.

We must advice our customers to order early and to lay the crowns immedeately in, the roots well covered, leaving the crowns fully exposed to the air, so, that the frost can freely reach them.

The flower after this treatment will be equal in size and quality to those produced by the best German or Berlin Crowns.

Convalaria Fortin Clumps.

Per 100 9.60.

We offer the above for the first time and although the price is rather high no grower will feel sory to have paid this extra money, for one must first have seen a clump of these in bloom to be convinced what a tremendous difference there is between these and an clump of the ordinairy old Dutch variety.

Only a limited quantity to offer.

Marica. (Aug.-Oct.)

Coerulea, bright blue, splendid	18 —

DUTCH BULBS

OFFERED FOR SALE BY

J. J. Grullemans & Sons,

West-End-Nurseries.

ESTABL. 1854.

LISSE-HOLLAND.

PRINTED BY MULDER, LEIDEN (HOLLAND).

West-End-Nurseries. **Lisse-Holland 1909.**

Gentlemen,

We have much pleasure in presenting you our Bulb-Book for 1909, the **largest** and **most complete** issued by any Dutch Firm.

Our yearly growing bussiness, shows that our efforts to see orders executed with all possible speed, and with best class bulbs and plants **only,** are crowned with success.

To Firms with whom we had up to present no dealings we shall be glad to furnish them with such references which will give them sufficient confidence, that their orders if placed with us, are in good hands In recommending our bulbs to the **Wholesale Trade** we wish to assure our customers that they will be well pleased when receiving our goods.

No doubt we have put our prices so that in most cases you will find them correct. Should you however have a lower offer from an other reliable Dutch House, we shall be glad to be informed, and we promise to do all what is possible to meet you.

Lisse as you may be aware is now the leading center of the Bulb Trade.

Trusting we may be favored with a continuance of your esteemed commands.

Yours respectfully,

J. J. GRULLEMANS & SONS.

COMPLAINTS.

No complaints can be entertained unless made on **receipt** of the goods, and we can not take any responsibility as to their flowering as so much depends upon their treatment, but every precaution is taken to sent nothing but first sized well matured bulbs such as will under ordinary circumstances produce the very finest flowers and give the utmost satisfaction.

Early orders are respectfully solicited.

Special terms of payement.

To parties with satisfactory references we allow Credit until the 1st of March 1910.

If longer Credit is required, please say so when ordering. In case we do not consider a customer trustworthy for ordinary credit we can demand payement at any time.

ACCOUNTS, PAID WITHIN.

1 month from date of invoice are entitled to 5% discount.
2 months „ „ „ „ „ „ „ 4% „
3 „ „ „ „ „ „ „ „ 3% „

☞ *Accounts not paid within 12 months after date of invoice will then be drawn against atsight.*

Orders from unknown correspondents must be accompained by satisfactory references or one-half the amount of bill. Belance of amount to be paid on arrival of goods, such payments are subjected to 5% discount on the full amount of the account.

Terms.

1. **Prices** are quoted nett and subject to market fluctuations.
2. **All goods** travel at purchaser's risk and expense from sellers' stores.
3. **Unless** contrary orders are given, insurance will be provided for at purchaser's costs.
4. **Packing** and cases will be charged at cost price.
5. **J. J. Grullemans & Sons** give no warranty, express or implied, and will not be in any way responsible for the results of planting or forcing of any bulbs and roots they send out: they guarantee all varieties to be true to name and description.
6. **If at the time** of shipment the buyer has not yet settled his last year's account, sellers reserve to themselves a right to cancel all arrangements for new transactions.
7. **By placing orders,** buyers are considered to agree with these terms, even if they differ from the laws of their country.

NOTICE.

25 roots will be charged at 100 rate.

250 at 1000 rate.

Telegrams should be addressed:

Grullemans, Lisse, Holland.

If wiring, goods will leave with the next steamer from Rotterdam or Amsterdam.

	Scotch, white striped lilas		—.30	2.10

Large Yellow Crocus.

Matross	**Yellow**, largest Top Roots. . . .	per 10.000 48.—	—.60	5.—
Matted	„ 1st size.	„ „ 38.—	—.50	4.—
Mastfull	„ 2d „	„ „ 28.—	—.40	3.—
Marish	„ 3d „	„ „ 18.—	—.30	2.—
Mars	„ 4d „	„ „ 14.—	—.20	1.60

We must ask our customers to place their order for **Yellow Crocus** as early as possible.

The failure of the crop last season has reduced the stocks generally to a large extent, and are sure of being again very scarce this summer.

NOTICE.

We again beg to draw the attention of our customers to our offer of Helleboris Niger maximus in this list. Being very large stockholders you can do no better than to favor us with your orders for same. Full satisfaction guaranted.

For offer see pag. 109—110.

SINGLE DAHLIA'S.

	Named varieties	4.40	
	Mixed all colors	2.60	

Paeonia flowered Dahlia's.

New Extra.

This new race of Dahlia's was in 1906 for the first time shown at a Royal Horticultural Meeting in London and created quite a sensation. The flowers are large and well expanded and of a most gracefull form, and we surely do not say too much if we say they are the finest Dahlia's ever offered to the public.

Queen Wilhelmina, pure white, fine form, very floriferous.
Prince Henry, crimson red, strong grower, semi-double flowers, 1st class Certificate Amsterdam 1905.
Glorie of Baarn, light rose, double, very large flowers.
Pius X, creamy yellow, with salmon colored center, single flower with two rows of petals, very excentric.
Hollandia, bright rose, the flowers of this variety have very long stems, for cutblooms no better.
Baron G. de Grancy, creamy white, 1ste class Certificate, very floriferous.
Queen Emma, very large flower, bright salmon color, shaded lilas, extra fine.
Germania, dark red, very large flowers a grand variety.
Paul Kruger, white flushed red, a vigorous grower.
Dr. K. W. v. Gorkum, white, shaded rose, compact plant, very good.
King Leopold, yellow changing to white, grows two yards high a grand variety.
Solfaterre, carminred with yellow base, highly recommended.

For dilivery autumn 1909 strong clumps
—.20 each, per 100 14.—

New Varieties.

— 1908. —

Empress Augusta Victoria, Hugo de Vries, Miss G. Dawson, Glory of Groenekan, Isadora Duncan, Th. Hornsfeld and **La Riante,** strong clumps at —.60 each

Description of color of each variety, may be had on application.

Gladiolus Hollandia.

A new Brenchlyensis variety.

A free growing variety with flowerspikes rather longer than those of Gladiolus Brenchlyensis.

The flowers are large and well opened and of exceptionally good form, even the smaller bulbs often produce **from 30 to 40 flowers on a single spike.**

The salmon shade rose color, makes it very distinct and delicate.

Planted in open ground, it is sure to give satisfaction, while as cutflower it is certain to find a ready sale.

per 100 $ 1.60 per 1000 $ 14.—
per 10.000 $ 110.—

Iris Alata or Scorpioïdes.

	p. 100. $ ct.	p. 1000. $ ct.
Strong forcing bulbs, extra selected.	1.30	11.—
" " " all flowering	1.—	9.—

For early forcing no better, it blooms with us in the open ground in January so that no one will find it difficult to have it in bloom at the begin of December or even earlier. Treatment the same as given to tulips.

Flowers are of a lovely deep sky blue color, with a few light and dark spots in the center of the bloom. Where other Irissus are not to be had at that time of the year it should proof to be of great value as a cutflower. As a pot plant, we advice to place 3 bulbs in each and when forced in this way they will proof to be of great value to flowershops.

Iris filifolia.

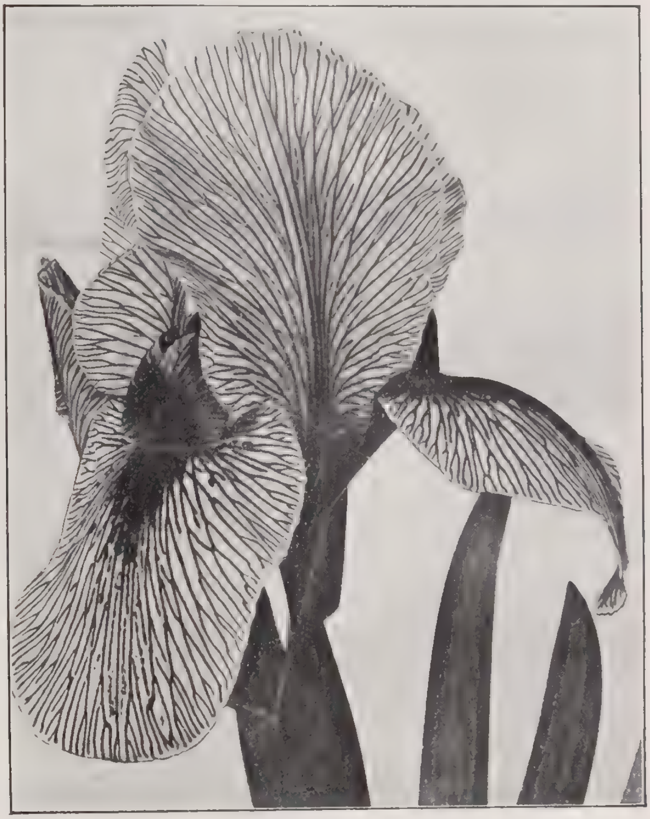
A grand variety for early forcing color beautiful sky-blue large and substantial flowers on strong stems. Height about 1½ to 2 feet.

Every grower who forces Iris should try it. Flowers three weeks earlier than all other spanish Iris.

Price per 100 1.40; per 1000 12.—; per 10.000 100—

IRIS

NOVELTIES 1907.



Flower of a Regelio-Cyclus Iris.

Regelio-Cyclus (onco-Regelia) Iris.

Awarded on the different London shows with first class Certificates and Awards of merit.

This beautiful new race of Iris, flowers and cultivates with great eassiness, comparing with the Oncocyclus Iris (Iberica, Lorteti etc.) who are most difficult to cultivate. The flowers are of the same size of ordinairy Oncocyclus, and of satiny white, rose, braunish or violet ground, and are veined black. The flowerstems are strong and of good length, and carry generally three to four flowers, while from three to four flowerstems on a plant may be expected.

	each $ ct.
Arkadie, purplish red veined brown on a white ground	1.—
Castor, ruby red veined bronze.	—.60
Charon, F. C. Certificate London May 17. '04. Color dark brown veined black, extra	1.—

" **Thumbergi**	2.80	
" **verticulatum**	2.40	

NOTICE.

The Dutch forcing crowns we guarantee to give the greatest satisfaction but they should be forced **after** January.

We must advice our customers, to order early and to lay the crowns immedeately in, the roots well covered, leaving the crowns fully exposed to the air, so, that the frost can freely reach them.

The flower after this treatment will be equal in size and quality to those produced by the best German or Berlin Crowns.

Convalaria Fortin Clumps.

Per 100 10.—.

We offer the above for as long as unsold, having only a limited quantity to offer. Although the price is rather high no grower will feel sory to have paid this extra money, for one must first have seen a clump of these in bloom to be convinced what a tremendous difference there is between these and a clump of the ordinairy old Dutch variety.

Only a limited quantity to offer.

Montbretsia Speciosa.

The **Montbretsia** which we are sure will be one of the leading varieties in the future, color bright orange red, on very strong stems. We dare say there is even amongst the more expensive varieties **no better**. If cut and placed in water flowers will last over a fortnight.

Having before we offered it to the trade, cultivated a large stock of this grand variety, we are now in a position to offer it very reasonable.

Price per 100 —.40 per 1000 3.— per 10.000 28.—

Spiraea. (Oct.-April).

Two grand new pink varieties.

Both these varieties force readily, and are quite hardy, thriving best in a moist position. The growth is similar to the old **Spiraea japonica**, but the flowers are of a beautiful shade of pink. When used in combination with any of the white-flowered varieties the decorative effect is most pleasing.

	p. 100.

DUTCH BULBS

OFFERED FOR SALE BY

J. J. Grullemans & Sons,

West-End-Nurseries

ESTABL. 1854.

LISSE-HOLLAND.

PRINTED BY MULDER, LEIDEN (HOLLAND).

Gentlemen,

We have much pleasure in tendering you our Bulb-Book for 1910, the **largest** and **most complete** issued by any Dutch Firm.

Our yearly growing business, shows that our efforts to see orders executed with all possible speed, and with best class bulbs and plants **only,** are crowned with success.

As to firms, we did not yet deal with, we shall be glad to furnish with such references as will give them sufficient confidence, that their orders if placed with us, are in good hands. In recommending our bulbs to the **Wholesale Trade** we wish to assure our friends that they will be well pleased when receiving our goods.

We have put our prices so that in most cases you will find them correct. Should you however have a lower offer from any other reliable Dutch House, we shall be glad to be informed, and we promise to do all what is possible to meet you.

Lisse as you may be aware is now the leading centre of the Bulb Trade.

Trusting we may be favored with a continuance of your esteemed commands.

Yours respectfully,

J. J. GRULLEMANS & SONS.

COMPLAINTS.

No complaints can be entertained unless made on **receipt** of the goods, and we can not take any responsibility as to their flowering which greatly depends upon their treatment, but every precaution is taken to send nothing but first sized well matured bulbs such as will under ordinary circumstances produce the very finest flowers and give the utmost satisfaction.

Early orders are respectfully solicited.

Special terms of payment.

All accounts are payable on delivery of goods.

In ordinary cases however payment will not be required until 1st March following delivery, but an account must be paid forthwith should Messrs. Grullemans & Sons deem it necessary to demand immediate payment.

ACCOUNTS, PAID WITHIN.

1 month from date of invoice are entitled to 5% discount.
2 months „ „ „ „ „ „ „ 4% „
3 „ „ „ „ „ „ „ „ 3% „

☞ *Accounts not paid within 12 months after date of invoice will be disposed of by draft at sight.*

Orders from unknown correspondents must be accompanied by satisfactory references or one-half the amount of bill. Balance of amount to be paid on arrival of goods, for which 5% discount on the full amount of account is allowed.

Terms.

1. **Prices** are quoted nett and subject to market fluctuations.
2. **All goods** travel at purchaser's risk and expense from sellers' stores.
3. **Unless** directions to the contrary are given, insurance will be provided for at purchaser's costs.
4. **Packing** and cases will be charged at cost price.
5. **J. J. Grullemans & Sons** give no warranty, express or implied, and will not be in any way responsible for the results of planting or forcing of any bulbs and roots they send out: they guarantee all varieties to be true to name and description.
6. **If at the time** of shipment the buyer has not yet settled his last year's account, sellers reserve to themselves a right to cancel all arrangements for new transactions.
7. **By placing orders,** buyers are considered to agree with those terms, even if they differ from the laws of their country.

Parrot Tulips. = Sensation.

The most unique and rare Parrot Tulip of the recent time, flowers produced are of **immense size**, petals never being smaller **than nine inches in length**. The color is that of an ordinary Bybloom tulip, violet and yellowish white.

No wonder this tulip received on the **Temple Show** through its rarety, the greatest attention of all amateur tulip growers.

Price 6.— each.

SINGLE DAHLIA'S.

	Named varieties	4.20	
	Mixed all colors	2.40	

Paeonia flowered Dahlia's.

This new race of Dahlia's was in 1906 for the first time shown at a Royal Horticultural Meeting in London and created quite a sensation. The flowers are large and well expanded and of a most graceful form, and we surely do not exaggerate when saying they are the finest Dahlia's ever offered to the public.

Cable words.		p. 100. $ ct.
	Andrew Carnegie (1908). Different from the others in form and habit, strong stems. Very useful for decorative work. Colour salmon pink with bronze shading. 4 feet	19.20
	Baron G. de Grancy (1906). Beautiful habit, flowers on long stems rising above the foliage, white colour; floriferous. 5 feet	10.80
	Bertha von Suttner (1908). Blush mauve with a rosy salmon tint. Of compact and sturdy growth and very floriferous. Flowers often measuring 8 inches in diameter. 3½ feet.	19.20
	Dr. K. W. v. Gorkum (1906). Blush white very large pointed petalled flowers. 5 feet.	10.80
	Duke Henry (1906). Large purple crimson, very decorative, 5 feet	10.80
	Geisha (1908). A wonderful scarlet and yellow flower, a variety of great merit. 5 feet	19.20
	Germania (1908). Bright glowing crimson, very attractive, 3 feet	10.80
	Glory of Baarn (1906). Large flowers of a light rosy tint, 4 feet	10.80
	Glory of Groenekan (1907). Extra large flower, orange yellow. 4 feet	9.60
	H. Hornsveld (1907). Enormous large flowers of very elegant form, soft salmon color. 4 feet	9.60
	Hugo de Vries (1907). A dwarf variety, orange buff flowers, strong stems, typical form. 3 feet	9.60
	Kaiserin Augusta Victoria (1907). Primrose colour, bright flower. 3 feet	9.60
	King Edward (1908). Large flower. Pürple crimson, quite distinct. 6 feet	24.—
	King Leopold (1906). The best yellow colour, varying from cream yellow to white. Flowers very large and on long stems. 5 feet.	12.50
	La Riante (1907). Nice flowers, long and strong stems, pink 4 feet	10.80
	Mannheim (1908). Very fine form on long strong stems; orange soft stone red. 6 feet.	19.20
	Merveille (1907). Rosy salmon, nice form. 4¼ feet	10.80
	P. W. Jansen (1907). Rosy salmon with a dash of yellow. 5½ feet	12.50
	Queen Alexandra (1908). Elegant flower. Sulphur and white. 4 feet	24.—
	Queen Emma (1906). Rosy pink flowers, suffused with yellow and white. 6 feet	9.60
	Queen Wilhelmina (1906). Pure white, elegant form; floriferous. 4 feet	12.50
	Sneeuwwitje (Snowqueen) (1907). Pure white, strong plant. 4 feet	12.50

	„ **ochrospeilus**	1.60	14.40
	„ **unguiculatus**	—.75	6.—

We can especially recommend this Galanthus for shop sale, even if kept in bags until the end of November there is hardly any loss in bulbs, whereas, it is sufficiently known, the old variety often gives a loss of 25 percent.

Please Note. We must inform our friends that **we can supply home grown** Galanthus Elwesi this season finest quality, bulbs generally having the size of small Narcissus. Kindly ask for quotation and samples in due time, which are to be had postfree on application in July. Stock at least half a million.

Gladiolus Hollandia.

A new Brenchlyensis variety.

A free growing variety with flowerspikes rather longer than those of Gladiolus Brenchlyensis.

The flowers are large and well opened and of exceptionally good form, even the smaller bulbs often produce **from 30 to 40 flowers on a single spike.**

The salmon shade rose color, makes it very distinct and delicate.

Planted in open ground, it is sure to give satisfaction and as cutflower it is certain to find a ready sale.

Bulbous Iris. (Aug.-Nov.)

Iris Alata or Scorpioïdes.

Cable words.		p. 100. $ ct.	p. 1000. $ ct.
	Strong forcing bulbs, extra selected	1.20	9.60
	„ „ „ all flowering	1.—	8.40

For early forcing no better, here it blooms in the open ground in January so that no one will find it difficult to have it in bloom at the begin of December or even earlier. Treatment the same as given to tulips.

Flowers are of a lovely deep sky blue color, with a few light and dark spots in the centre. As other Irissus are not to be had at that time of the year it apparently seems to be of great value for cutflower. As a pot plant, we advice to place 3 bulbs in each and when forced in this way they will be very suitable for flowershops.

IRIS.

NOVELTIES 1907.

Flower of a Regelio-Cyclus Iris.

Regelio-Cyclus (onco-Regelia) Iris.

Awarded on the different London shows with first class Certificates and Awards of merit.

This beautiful new race of Iris, flowers and cultivates with great easiness, compared to the Oncocyclus Iris (Iberica, Lorteti etc.) who are most difficult to cultivate. The flowers are of the same size as ordinary Oncocyclus, and of satiny white, rose, brownish or violet ground, and are veined black. The flower-stems are strong and of good length, and generally bear from three to four flowers, whereas an equal number of flowerstems on the plant may be expected.

	each. $ ct.
Arkadie, purplish red, veined brown on a white ground	1.10
Castor, ruby red, veined bronze	—.75
Charon, F. C. Certificate London May 17. '04. Color dark brown, veined black, extra	1.—

NOTICE.

The Dutch forcing crowns we guarantee to give the greatest satisfaction but they should be forced **after** January.

We must advice our customers, to order early and to lay the crowns immedeately in, the roots well covered, leaving the crowns fully exposed to the air, so, that the frost can freely reach them.

The flower after this treatment will be equal in size and quality to those produced by the best German or Berlin Crowns.

Convalaria Fortin Clumps.

Per 100 9.60.

We offer the above for as long as unsold, having only a limited quantity to offer. Although the price is rather high no grower will regret to have paid this extra money, for one must first have seen a clump of these in bloom to be convinced what an enormous difference there is between these and a clump of the ordinary old Dutch variety.

Only a restricted quantity to offer.

Montbretsia Speciosa.

This **Montbretsia** we are sure is now one of the leading varieties color bright orange red, on very strong stems. We may say there is even amongst the more expensive varieties **no better.** In a cut-state they remain constant for a fortnight and over.

Having cultivated a large stock of this variety, before tendering it to the trade, we are now in a position to offer it very reasonable.

Price per 100 —.40 per 1000 3.15 per 10.000 27.60

SCILLA.

Great Novelty 1908.

Scilla Cilicicus.

With much pleasure and confidence we can recommend our friends to place a trial order for Scilla Cilicicus with us.

Flowering with great abundance and with flowers of the most beautiful blue color imaginable, it is sure to give the highest satisfaction, may be forced in the ordinary way, but flowers much earlier than Scilla Siberica.

Flowers also being of more stability it will soon supplant the old Scilla Siberica from the market. We can offer as follows:

Extra selected bulbs	p. 100	1.45	p. 1000	12 —	p. 10.000	91.20
„ first size	„ „ „	1.—	„ „	7.20	„ „	67.20
Ordinary „	„ „ „	—.75	„ „	6 25	„ „	48.—

Early orders solicited.

Spiraea. (Oct.-April.)

Two grand Novelties.

Both these varieties force readily, and are quite hardy, thriving best in a moist position. The growth is similar to the old Spiraea Japonica buth the flowers are of a beautifull shade of pink. When used in combination with any of the white flowered varieties the decoratieve effect is most pleasing. We can offer strong cultivated clumps ready for forcing as follows.

	p. 100.
Queen Alexandra, a very bright pleasing shade of pink .	12.—
Peach Blossom, a light pink exceedingly pretty	10 80

Please order early to prevent disappointment.

DUTCH BULBS

OFFERED FOR SALE BY

J. J. Grullemans & Sons,

West-End-Nurseries

ESTABL. 1854.

LISSE-HOLLAND.

PRINTED BY MULDER, LEYDEN (HOLLAND).

West-End-Nurseries, Lisse-Holland 1910.

Gentlemen,

We have much pleasure in presenting for your kind perusal our Bulb-Book for 1910, the **largest** and **most complete** issued by any Dutch Firm.

The continued increase in our business, shows that our efforts to have orders executed with all possible speed, and with best class bulbs and plants **only,** are crowned with success.

As to Firms, we did not yet deal with, we shall be glad to furnish them with such references as will give them sufficient confidence, that their orders, if placed with us, are in good hands.

Recommending our bulbs to the **Wholesale Trade** we wish to assure our friends that they will be thoroughly gratified when receiving our goods.

We have put our prices so that in most cases you will find them correct. Should you however have a lower offer from any other reliable Dutch House, we shall be glad to be informed, and we promise to do all in our power to meet you.

Lisse, as you may be aware, is now the leading centre of the Bulb-Trade.

Trusting we may be favored with a continuance of your esteemed commands.

Yours respectfully,

J. J. GRULLEMANS & SONS.

COMPLAINTS.

No complaints can be entertained unless made on **receipt** of the goods, and we cannot take any responsibility as to their flowering which greatly depends upon their treatment, but every precaution is taken to send nothing but first sized well matured bulbs such as will under ordinary circumstances produce the very finest flowers and give the utmost satisfaction.

Early orders are respectfully solicited.

Special terms of payment.

All accounts are payable on delivery of goods.

In ordinary cases however payment will not be required until 1st March following delivery, but an account must be paid forthwith should Messrs. J. J. Grullemans & Sons deem it necessary to demand immediate payment.

ACCOUNTS, PAID WITHIN.

1 month from date of invoice are entitled to 5% discount.
2 months „ „ „ „ „ „ „ 4% „
3 „ „ „ „ „ „ „ „ 3% „

☞ *Accounts not paid within 12 months after date of invoice will be disposed of by draft at sight.*

Orders from unknown correspondents must be accompanied by satisfactory references or one-half the amount of bill. Balance of amount to be paid on arrival of goods, for which 5% discounts on the full amount is allowed.

Terms.

1. **Prices** are quoted nett and subject to market fluctuations.
2. **All goods** travel at purchaser's risk and expense from sellers's stores.
3. **Unless** directions to the contrary are given, insurance will be provided at purchaser's costs.
4. **Packing** and cases will be charged at cost-price.
5. **J. J. Grullemans & Sons** give no warranty, express or implied, and will not be in any way responsible for the results of planting or forcing of any bulbs and roots they send out: they guarantee all varieties to be true to name and description.
6. **If at the time** of shipment the buyer has not yet settled his last year's account, sellers reserve to themselves a right to cancel all arrangements for new transactions.
7. **By placing orders,** buyers are considered to agree with those terms, even if they differ from the laws of their country.

NOTICE.

25 roots will be charged at 100 rate.

250 at 1000 rate.

Telegrams should be addressed:

Grullemans, Lisse Holland.

If wiring, goods will leave with the next steamer from Rotterdam or Amsterdam.

Mr. ROOSEVELT's visit at the Haarlem Flower show.

We are proud to say that when Mr. ROOSEVELT visited our groups he took particulary good notice of our exhibit and left it -- with the words -- **very beautifull indeed** — it is all the more appreciated by us because ours and one or two other exhibits were the only ones which seemed to have drawn his attention.

PARTLY VIEW OF OUR EXHIBIT AT THE HAARLEM SHOW.

Silver Gilt Medal, the only medal awarded for **Named** Hyacinths **1st size**. — **Gold Medal** for best single early Tulips. — **Gold Medal** offered by the Provincial States of Zeeland for the best Tulips on the Show. — **Gold Medal** for the best group of Narcissus. — **Silver Gilt Medal** for the best group of Miscellaneous bulbs. **Silver Gilt Medal** for the best group of Darwin tulips.

Our group of miscellaneous bulbs for which we were awarded the **SILVER GILT MEDAL**
Haarlem Show 1910.

Paeonia flowered Dahlia's.

This new race of Dahlia's was in 1906 firstly shown at a Royal Horticultural Meeting in London and created quite a sensation. The flowers are large and well expanded and of a most graceful form, and we surely do not exaggerate by saying they are the finest Dahlia's ever offered.

Cable words.		p. 100 $ ct.
	Andrew Carnegie (1908). Different from the others in form and habit, strong stems. Very useful for decorative work. Color salmon pink with bronze shading, height 4 feet	18 —
	Baron G. de Grancy (1906). Beautiful habit, flowers on long stems rising above the foliage, white color; floriferous. height 5 feet	9.60
	Bertha von Suttner (1908). Blush mauve with a rosy salmon tint. Of compact and sturdy growth and very floriferous. Flowers often measuring 8 inches in diameter. height $3^1/_2$ feet	18.—
	Dr. K. W. van Gorkum (1906). Blush white very large pointed flowers height 5 feet	9 60
	Duke Henry (1906) Large purple crimson, very decorative, height 5 feet	9.60
	Geisha (1908). A wonderful scarlet and yellow flower, a variety of great merit height 5 feet	18.—
	Germania (1908) Bright glowing crimson, very attractive. height 3 feet	9.60
	Glory of Baarn (1906). Large flowers of a light rosy tint, height 4 feet	9.60
	Glory of Groenekan (1907). Extra large flower, orange yellow. height 4 feet	9.60
	Hollandia, bright rose	13.20
	H. Hornsveld (1907). Enormous large flowers of very elegant from, soft salmon color. height 4 feet	9.60
	Hugo de Vries (1907). A dwarf variety, orange buff flowers, strong stems, typical form. height 3 feet	9.60
	Kaiserin Augusta Victoria (1907). Primrose color, bright flower. height 3 feet	9.60
	King Edward (1908). Large flower. Purple crimson, quite distinct. height 6 feet	25.—
	King Leopold (1906). The best yellow color, varying from cream yellow to white. Flowers very large and on long stems. height 5 feet	9.60
	La Riante (1907). Nice flowers, long and strong stems, pink height 4 feet.	9.60
	Mannheim (1908). Very fine form on long strong stems; orange shaded soft stone red. height 6 feet	18 —
	Merveille (1907). Rosy salmon, nice form. height $4^1/_4$ feet	9.60

We can especially recommend this Galanthus for shop sale, even if kept in bags until the end of November there is hardly any loss in bulbs, while the old variety, as is well known, often gives a loss of 25 percent.

Please Note. We must inform our customers that **we can supply home grown Galanthus Elwesi** of the finest quality — the bulbs of these are generally of the size of small Narcissus — kindly ask for prices and samples, which may be had in July post free on application. Stock at least half a million.

Molest

Gladiolus Hollandia.

A new Brenchlyensis variety.

A free flowering variety with spikes rather longer than those of Gladiolus Brenchlyensis.

The flowers are large and well opened and of exceptional good form, even the smaller bulbs often produce **from 30 to 40 flowers on a single spike.**

The salmon shaded rose color, makes it very distinct and delicate.

Planted in open ground, it is sure to give satisfaction, while as a cutflower it is certain to find a ready sale.

per 100 $ 1.35 per 1000 $ 12.— per 10.000 $ 115.—

Hybrids of Gandavensis.

Novelty 1908.

Miss Kitty Grullemans, each $ —.25 per dozen $ 2.20

This Gladiolus can be looked upon as the finest yet raised, it grows with remarkable vigor and flowers with a freedom that is sure to give satisfaction to all.

The tremendous size of deep purple flowers which are very brilliant and striking are unsurpassed.

Modern

America, a splendid large flowering variety, color bright lila-rose extra large and strong spikes, a most beautiful variety for cutting, new

IRIS.

Bulbous Iris. (Aug.-Nov.)

Iris Alata or Scorpioïdes.

Cable words.			
Mot	**Strong forcing bulbs,** extra selected	1.—	7.50
Mothen	„ „ „ all flowering	—.90	6.—

For early forcing no better, it blooms here in the open ground in January so that no one will find it difficult to have it in bloom beginning of December or even earlier. Treatment the same as given to tulips.

Flowers are of a lovely deep sky blue color, with a few light and dark spots in the center of the bloom. As other Irissus are not to be had at that time of the year it should prove very profitable for cutflower. As a pot plant, we advise to place 3 bulbs in each and when forced in this way they will be of great value to flowershops.

Cable words.		p. 100 $ ct.	p. 1000 $ ct.

DUTCH IRIS.

A NEW AND EARLY RACE.

This new strain has been created by the crossing of Xiphiums, such as **filifolia, tingitana, Buritania, Boissieri** and other early flowering varieties. It has entirely been **cultivated in Holland** and therefore the name of **Dutch Iris** is fully justified.

The flowers are a good deal larger than those of the ordinary Spanish Iris and characterised by wide faces covered with very conspicuous orange blotches. The prevailing tone of colour is that of the gentle shades which we meet with Coquette des Blanches (Louise) and La Tendresse.

Curiously there are but a few yellows amongst them, so that the stock of those is at present still restricted. The great value of those Irises is their **earliness.**

They are at least a fortnight earlier than the Spanish Irises. They will fill up the awkward gap after the tulips, and for this reason will be welcome additions to the herbaceous feature.

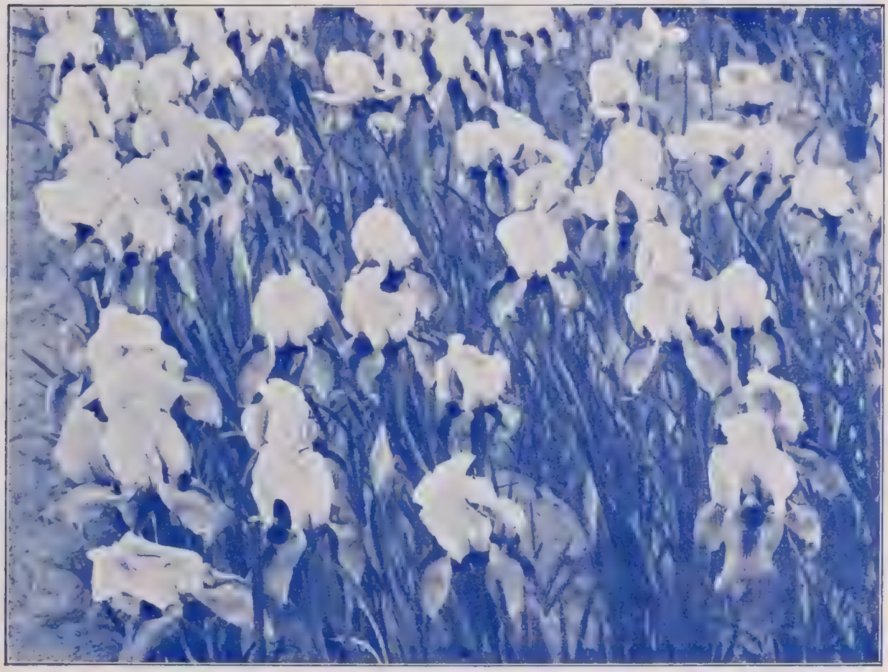
NOVELTIES.



Flower of a Regelio-Cyclus Iris.

Regelio-Cyclus (onco-Regelia) **Iris.**

Awarded on the different London shows with first class Certificates and Awards of merit.

This beautiful new race of Iris, flowers and cultivates with great easiness, compared with the Oncocyclus Iris (Iberica, Lorteti etc.) who are most difficult to cultivate. Flowers are of the same size as ordinary Oncocyclus, with satiny white, rose, brownish or violet ground, and are veined black. Flowerstems are strong and of good length, and carry generally three to four flowers, while from three to four flowerstems on a plant may be expected.

	each $ ct.
Arkadie, purplish red, veined brown on a white ground	1.20
Castor, ruby red, veined bronze	1.—
Charon, F. C. Certificate London May 17. '04 Color dark brown, veined black, extra	1.70
Eurydice, grand variety, with lila rose flowers, drooping petals on a lilas ground, veined dark violet	1.50
Eurynome, lilas rose, spotted purple	1.20
Flora, very floriferous rose, tinted brown	1.35

NOTICE.

The Dutch forcing crowns we guarantee to give the greatest satisfaction when forced **after** January.

We must advise our customers, to order early and to lay the crowns immediately in, roots well covered, leaving the crowns fully exposed to the air, so that the frost can freely reach them.

The flower after this treatment will be equal in size and quality to those produced by the best German or Berlin Crowns.

Nicet

Montbretsia Speciosa.

This **Montbretsia** we are sure is now one of the leading varieties color bright orange red, on very strong stems. We dare say there is even amongst the more expensive varieties **no better**. In a cut-state they remain constant for over a fortnight.

Before offering it to the trade we cultivated a large stock of this grand variety, and are now in a position to quote it very reasonable.

Price per 100 $ - .60 per 1000 $ 5.— per 10.000 $ 36.—

SCILLA.

Great Novelty 1908.

Scilla Cilicicus.

Octod

With much pleasure and confidence we can recommend our friends to place a trial order for Scilla Cilicicus with us.

Flowering with great abundance and with flowers of the most beautiful blue color imaginable, it is sure to give the highest satisfaction, may be forced in the ordinary way, but blooms much earlier than Scilla Siberica.

Through the precocity and constancy of the flowers it will soon push the old Scilla Siberica off the market. We can offer as follows:

Extra selected bulbs	per 100	1.50	per 1000	12.—	per 10.000	91.50
„ first size „	„ „	1.—	„ „	7.20	„ „	67.50
Ordinary „ „ „	„ „	—.75	„ „	6.25	„ „	48.—

Early orders solicited.

Spiraea. (Oct.-April.)

Two grand Novelties.

Both these varieties force readily, and are quite hardy, thriving best in a moist position. The growth is similar to the old Spirea Japonica but the flowers are of a beautiful shade of pink. When used in combination with any of the white flowered varieties the decorative effect is most pleasing. We can offer strong cultivated clumps ready for forcing as follows.

		p. 100
Oint	**Queen Alexandra,** a very bright pleasing shade of pink	10.—
Oker	**Peach Blossom,** a light pink exceedingly pretty	10.—

Please order early to prevent disappointment.

Postage extra —.60 per dozen plates. — No less than one dozen plates can be supplied at this rate.

In ordering please state varieties preferred.

Tulips Growing in fibre.

Roman Hyacinths growing in fibre.

Narcissus growing in fibre

The growth of bulbs in Fibre, in china vases or bowls **without Drainage.**

The best and most charming way of growing spring bulbs for house and table decoration.

The wonderful succes we have achieved in growing bulbs, such as Roman Hyacinths, Paper whites, Dutch Hyacinths, Tulips and Narcissus in our special fibre, using china vases **without** drainage, proves, that it is not only a most charming and effective method of growing bulbs for those who have neither a large garden, the conveniences of greenhouses, or frames, nor have a difficulty in obtaining suitable soil, but that it is also one which we feel sure is being, and will be, much more extensively adopted in the future when it is fully realised what can be done in this way.

The advantage of this system is, that the vases can be placed any where about the house, in the drawing-room or dining-room, without fear of any mess from water or soil coming through the base of pots. The Fibre is perfectly odourless, and clean to handle. It is specially and carefully prepared by ourselves for this purpose and we strongly recommend all our correspondents to try a few various bulbs in this way if they have not yet done so.

The bulbs are potted the same way as in ordinary soil just showing theirs tops. It is **not necessary** or **desirable** to press the fibre **tightly,** otherwise the roots do not work freely, and bulbs have a tendency to push themselves upwards. Once potted, they require hardly any attention, only **great** care should be taken to keep the compost moist, but on no account must it be **sodden or too wet.**

If **once** allowed to become dry, even for half a day only, the pores of the roots close up and the bulbs in many cases go blind and are ruined. This happens more frequently with Tulips than Narcissus, the tulip roots being finer and therefore more liable to enjury.

When the bulbs have been potted, vases or jars should be kept in a **dark** airy cellar or room, nothing is worse than a confined cup board or a small, airless dark room.

When the bulbs have grown about one inch, they should be brought into more light, and the vases or bowls can be placed in the window during the day, taking care, of course, to keep them from frost. **All** bulbs can be grown in fibre but in Hyacinths we have a special size which is best for this way of cultivation.

We are offering ten distinct shades at $ 35.— per 1000. Miniature Hyacinths grow freely and look very nice in bowls, mixed colors should never be used as they come to uneven.

The fibre is carefully mixed and packed by ourselves and shipped dry so as to cost as little freight as possible.

A case containing about 15 bushels costs $ 3.— a smaller size containing about 7 bushels is charged $ 2.— for. Prices subjected to 5% discount for cash, no charge for packing.

P. S. Some of our rivals are using coconut fibre for this kind of cultivation, but this does not by any means give the same satisfaction, our fibre being the original plant fibre and therefore for superior to this imitation.

1912.

WHOLESALE ONLY.

CATALOGUE

OF

DUTCH BULBS AND PLANTS

OFFERED FOR SALE BY

J. J. Grullemans & Sons,

West-End-Nurseries

ESTABL. 1854.

LISSE-HOLLAND.

PRINTED BY P. J. MULDER & SON., LEYDEN (HOLLAND).

Gentlemen,

We have much pleasure in presenting for your kind perusal our Bulb-Book for 1912, the **largest** and **most complete** issued by any Dutch Firm.

The continued increase in our business, prove that our efforts to have orders executed with all possible speed, and with best class bulbs and plants **only,** are successful.

As to Firms, we did not yet deal with, we shall be glad to furnish them with such references as will give them sufficient confidence, that their orders, if placed with us, are in good hands.

Recommending our bulbs to the **Wholesale Trade** we wish to assure our friends that they will be thoroughly gratified when receiving our goods.

We have put our prices so that in most cases you will find them correct. Should you however have a lower offer from any other reliable Dutch House, we shall be glad to be informed, and we promise to do all in our power to meet you.

Lisse, as you may be aware, is now the leading centre of the Bulb-Trade.

Trusting we may be favored with the continuance of your esteemed commands.

Yours respectfully,

J. J. GRULLEMANS & SONS.

COMPLAINTS.

No complaints can be entertained unless made on **receipt** of the goods, and we cannot take any responsibility as to their flowering which greatly depends upon treatment, but every precaution is taken to send nothing but first-sized well-matured bulbs such as will under ordinary circumstances produce the very finest flowers and give the utmost satisfaction.

Early orders are respectfully solicited.

Special terms of payment.

All accounts are payable on delivery of goods.

In ordinary cases however payment will not be required until 1st of March following delivery, but an account must be paid forthwith should Messrs. Grullemans & Sons deem it necessary to demand immediate payment.

ACCOUNTS, PAID WITHIN.

1 month from date of invoice are entitled to 5% discount.
2 months ,, ,, ,, ,, ,, ,, ,, 4% ,,
3 ,, ,, ,, ,, ,, ,, ,, ,, 3% ,,

☞ *Accounts not paid within 12 months after date of invoice will be disposed of by draft at sight.*

Orders from unknown correspondents must be accompanied by satisfactory references or one-half the amount of bill. Balance of amount to be paid on arrival of goods, for which 5% discount on the full amount is allowed.

Terms.

1. **Prices** are quoted nett and subject to ~~market fluctuations~~.
2. **All goods** travel at purchaser's risk and expence from sellers' stores.
3. **Unless** directions to the contrary are given, insurance will be provided at purchaser's costs.
4. **Packing** and cases will be charged at cost-price.
5. **J. J. Grullemans & Sons** give no warranty, express or implied, and will not be in any way responsible for the results of planting or forcing of any bulbs and roots they send out; they guarantee all varieties to be true to name and description.
6. **If at the time** of shipment the buyer has not yet settled his last year's account, sellers reserve to themselves a right to cancel all arrangements for new transactions.
7. **By placing orders,** buyers are considered to agree with those terms, even if they differ from the laws of their country.

NOTICE.

25 roots will be charged at 100 rate.

250 at 1000 rate.

Telegrams should be addressed:

Grullemans, Lisse, Holland.

If wiring, goods will leave with the next steamer from Rotterdam or Amsterdam.

Award of Merit Drill Hall Show April 1900.

It grows two feet in height. Flowers very freely and produces from four to five flowers on each stem: color bright yellow changing into deep orange in the cedtre. **Flowers do not droop.** A grand stock, the largest of any grower is in our possession, so that customers may rely upon getting the finest bulbs.

Double Chrysanthemum flowered Anemones.

The Chrysanthemum flowered Anemones are absolutely distinct from the ordinary double Anemones, the petals are all of the same form and beautifully imbricated, the plants are of very large size and produce an immense quantity of grand flowers. Highly recommended.

Paeonia flowered Dahlia's.

This new race of Dahlia's firstly displayed at a Royal Horticultural Meeting London 1906, created quite a stir. The flowers are large and well expanded and of a most graceful form, and we surely do not exaggerate by saying they are the finest Dahlia's ever offered to the public.

	p 100 $ ct.
Andrew Carnegie (1908(. Different from the others in form and habit, strong stems. Very useful for decorative work. Colour salmon pink with bronze shading, height 4 feet	18.--
Baron G. de Grancy (1906). Beautiful habit, flowers on long stems rising above the foliage, white colour; floriferous height 5 feet	10.—
Bertha von Suttner (1008). Blush mauve with a rosy salmon tint. Of compact and sturdy growth and very floriferous. Flowers often measuring 8 inches in diameter height 3½ feet	18.—
Dr. K. W. v. Gorkum (1806). Blush white, very large pointed flowers height 5 feet	10.—
Duke Henry (1906). Large purple crimson, very decorative, 5 feet	10.—
Geisha (1908). A wonderful scarlet and yellow flower, a variety of great merit, height 5 feet	18.—
Germania (1908). Bright glowing crimson, very attractive, height 3 feet	10.—
Glory of Baarn (1806). Large flowers of a light rosy tint, height 4 feet	10.—
Glory of Groenekan (1907). Extra large flower, orange yellow, height 4 feet	10.—
Hollandia, bright rose	13.50
H. Hornsveld (1907). Enormous large flowers of very elegant form, soft salmon color, height 4 feet	10.—
Hugo de Vries (1907). A dwarf variety, orange buff flowers, strong stems, typical forms, height 3 feet	10.—

Cable words.		p. 100 $ ct.
	Kaiserin Augusta Victoria (1907). Primrose colour, bright flower, height 3 feet	10.—
	King Edward (1908). Large flower, purple crimson, very fine, height 6 feet	24.—
	King Leopold (1906). The best yellow colour, varying from creamy yellow to white. Flowers very large and on long stems, height 5 feet	10.—
	La Riante (1907). Nice pink flowers, long and strong stems, height 4 feet	10.—
	Mannheim (1908). Very fine form on long strong stems; orange soft stone red, height 6 feet	18.—
	Merveille (1907). Rosy salmon, nice form, height 4½ feet	10.—
	P. W. Jansen (1907). Rosy salmon with a dash of yellow. height 5½ feet	10.—
	Queen Alexandra (1908). Elegant flower. Sulphur and white. Height 4 feet	22.—
	Queen Emma (1906). Rosy pink flowers, suffused with yellow and white. Height 6 feet	10.—
	Queen Wilhelmina (1906). Pure white, elegant form; floriferous. Height 4 feet	10.—
	Sneeuwwitje (Snowqueen) (1907). Pure white, strong plant. Height 4 feet	10.—
	Solfaterre, scarlet, yellow center	12.—

We can especially recommend this Galanthus for shop sale, even if kept in bags until the end of November there is hardly any loss in bulbs, while the old variety, as is well known, often gives a loss of 25 percent.

Please Note. We must inform our customers that **we can supply home grown Galanthus Elwesi** of the finest quality — the bulbs of these are generally of the size of small Narcissus — kindly ask for prices and samples, which may be had in July post free on application. Stock at least half a million.

Molest

Gladiolus Hollandia.

A new Brenchlyensis variety.

A free growing variety with flowerspikes rather longer than those of Gladiolus Brenchlyensis.

The flowers are large and well opened and of exceptional good form, even the smaller bulbs often produce **from 30 to 40 flowers on a single spike.**

The salmon shade rose color, makes it very distinct and delicate.

Planted in open ground, it is sure to give satisfaction, while as cutflower it is certain to find a ready sale.

per 100 $ 1.50 per 1000 $ 13.50 per 10.000 $ 120.—

Hybrids of Gandavensis.

Novelty 1908.

Miss Kitty Grullemans, each —.25 per dozen 2.25.

This Gladiolus can be looked upon as the finest yet raised, it grows with remarkable vigor and flowers with a freedom that is sure to give satisfaction to all.

The tremendous size of deep purple flowers, which are very brilliant and striking, is unsurpassed.

IRIS.

Bulbous Iris. (Aug.-Nov.)

Iris Alata or Scorpioïdes.

Mot	**Strong forcing bulbs,** extra selected	1.80	16.—
Mothen	„ „ „ all flowering	1.20	10.—

For early forcing no better, it flowers here in the open in January so that nobody will find it difficult to have it in bloom beginning of December or even earlier. Same treatment as given to tulips.

Flowers are of a lovely deep sky-blue color, with a few light and dark spots in the center. As other Irissus are not to be had at that time of the year it should prove very profitable for cutflower. As a pot plant, we advise to place 3 bulbs in each and when forced in this way they will be of great value to flowershops.

	alata alba	each 1.—

Moxa

Iris filifolia.

A grand variety for early forcing, color beautiful sky-blue, large and substantial flowers on strong stems. Height about $1^{1}/_{2}$ to 2 feet.

Every grower, who forces Iris, should try it. Flowers three weeks earlier than any other Spanish Iris.

Price per 100 $ 3.—; per 1000 $ 24.—

Spanish Iris.

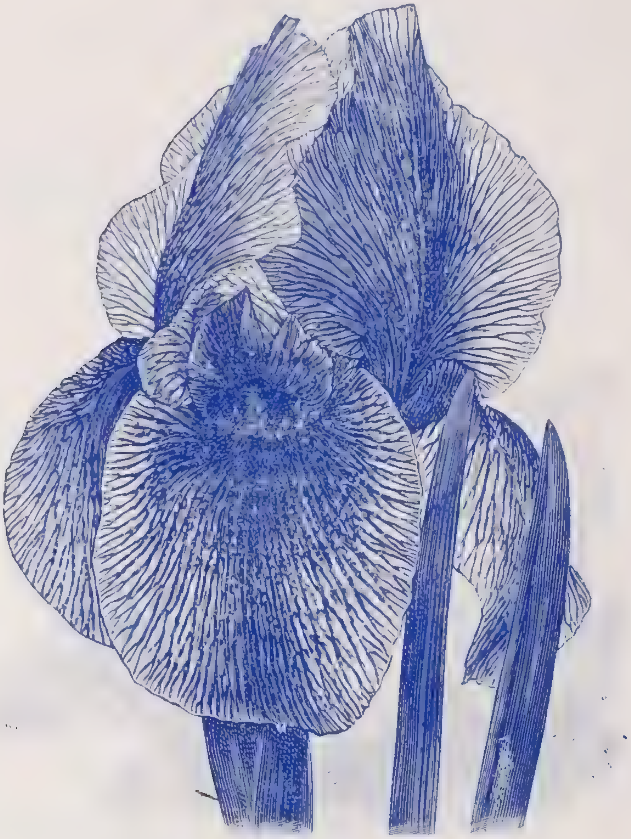
NOVELTIES.



Flower of a Regelio-Cyclus Iris.

Regelio-Cyclus (onco-Regelia) **Iris.**

Awarded on the different London shows with first class Certificates and Awards of merit.

This beautiful new race of Iris, flowers and cultivates with great easiness, compared with the Oncocyclus Iris (Iberica, Lorteti etc.) who are most difficult of cultivation. The flowers are of the same size as ordinary Oncocyclus, with satiny white, rose, brownish or violet ground, veined black. Their strong and rather long stalks carry generally three to four flowers, while from three to four flowerstems on a plant may be expected.

	each $ ct.
Arkadie, purplish red, veined brown on a white ground.	1.25
Castor, ruby red, veined bronze	1.—
Charon, F. C. Certificate London May 17, '04. Color dark brown, veined black, extra	1.75

DUTCH IRIS.

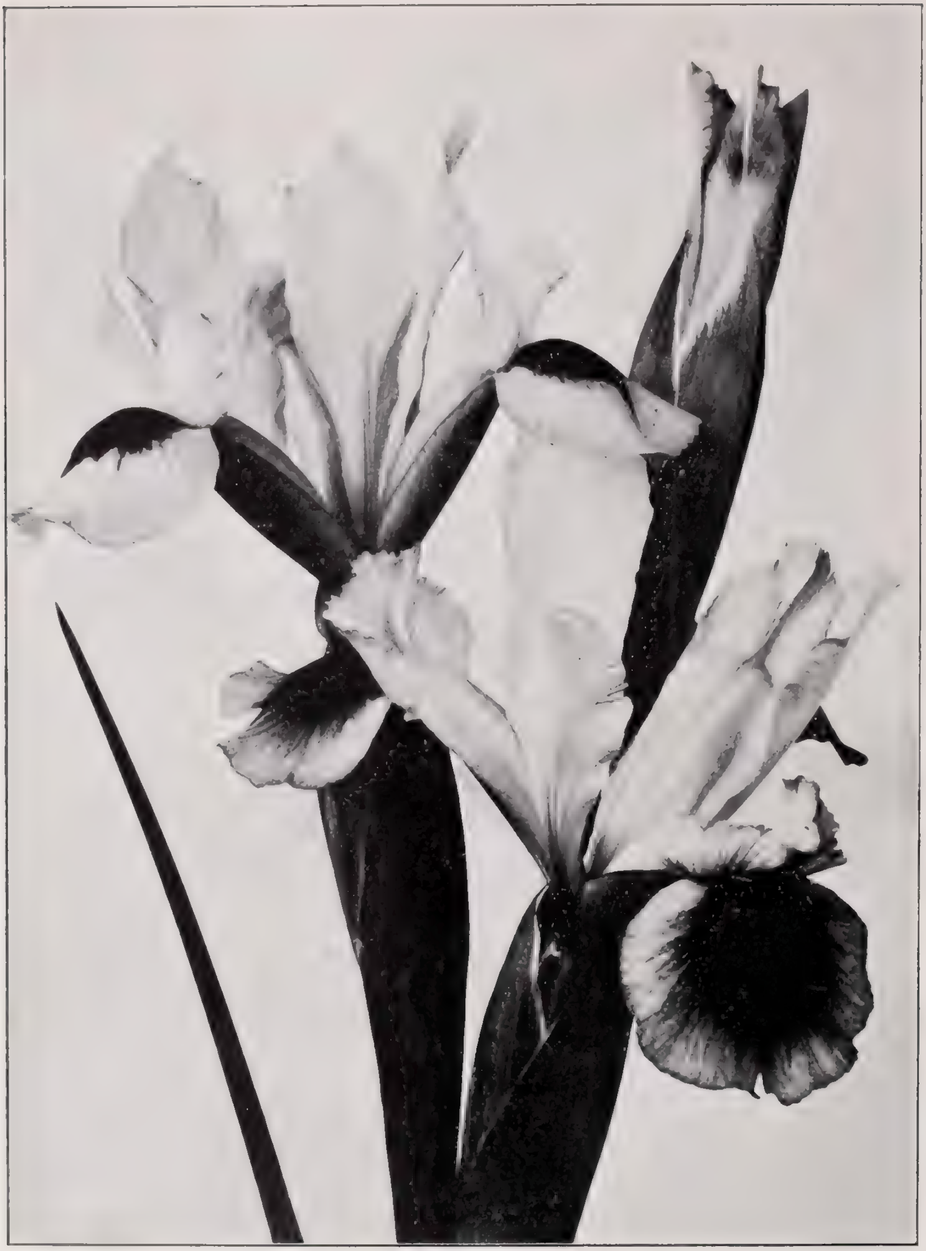
A NEW AND EARLY RACE.



This new strain has been sported by the crossing of Xiphiums, such as **filifolia, tingitana, Buritania, Boissieri** and other early flowering varieties. It has entirely been **cultivated in Holland** and therefore the name of **Dutch Iris** is fully justified.

The flowers are a good deal larger than those of the ordinary Spanish Iris and characterised by wide faces covered with very conspicuous orange blotches. The prevailing tone of colour is that of the gentle shades which we meet with Coquette des Blanches (Louise) and La Tendresse.

Curiously there are but a few yellows amongst them, so that stock of those is at present still restricted. The great value of those Irises is their **earliness.**

They are at least a fortnight earlier than the Spanish Irises. They will fill up the awkward gap after the tulips, and for this reason will be welcome additions to the herbaceous border.

NOTICE.

The Dutch forcing crowns we guarantee to give the greatest satisfaction if forced **after** January.

We must advice our customers, to order early and to lay the crowns in immediately, roots well covered, leaving the crowns fully exposed to the air, so that the frost can freely touch them.

After this treatment the flower will equal, in size and quality, those produced by the best of German or Berlin Crowns.

Montbretsia Speciosa.

This **Montbretsia** is certainly now one of the leading varieties, color bright orange red, on very strong stems. We dare say there is even amongst the more expensive varieties **no better.** If cut and placed in water, flowers will last over a fortnight.

Having cultivated a large stock of this grand variety, we are in a position to offer it very reasonable.

Price per 100 —.60 per 1000 5.— per 10.000 36.—

MORPHIXIA.

MORPHIXIAS.

(Aug.-Nov.)

A splendid bulbous plant much in the same habit as **Ixias.** They grow however dwarfer and are later in bloom — when in bloom they last a considerable time, they may be easily grown in pots.

SCILLA.

Great Novelty 1908.

Octod

Scilla Cilicicus.

With much pleasure and confidence we can recommend our friends to favor us with a trial order for Scilla Cilicicus.

Producing with great abundance flowers of the most beautiful blue color imaginable, it is sure to give the highest satisfaction. May be forced in the ordinary way and blooms much earlier than Scilla Siberica.

Through the precocity and constancy of the flowers it will soon push the old Scilla Siberica off the market. We can offer as follows:

Extra selected bulbs	per 100	1.50	per 1000	12.—	per 10.000	110.—
„ first size „	„ „	1.25	„ „	10.—	„ „	75.—

TO H.I.M. THE EMPEROR OF GERMANY
KING OF PRUSSIA.

FOR SHOP DECORATION

WE OFFER AT REDUCED PRICES

(Subject to being unsold.)

Beautifully Chromolithographed COLORED PLATES of Hyacinths, Tulips, Crocus and various bulbous flowers.

(size 12/15 inches) per doz. $ 3.— per 100 $ 21.— nett. cash.

These plates being perfectly true to nature both regarding size of the flowers and colors, will be found of great value for framing up in the shop or as reference on the counter during the autumn and spring sale. Postage extra —.60 per dozen plates. — No less than one dozen plates can be supplied at this rate.

In ordening please state varieties preferred.

Tulips Growing in fibre.

Roman Hyacinths growing in fibre.

Narcissus growing in fibre.

The growth of bulbs in Fibre, in china vases or bowls **without Drainage.**

The best and most charming way of growing spring bulbs for house and table decoration.

The wonderful succes we have achieved in growing bulbs, such as Roman Hyacinths, Paper whites. Dutch Hyacinths. Tulips and Narcissus in our special fibre. using china vases **without** drainage, proves, that it is not only a most charming and effective method of growing bulbs for those who have neither a large garden, the conveniences of greenhouses, or frames, or have a difficulty in obtaining suitable soil, but that it is also one which we feel sure is being, and will be, much more extensively adopted in the future when it is fully realised what can be done in this way.

The advantage of this system is, that the vases can be placed any where about the house, in the drawing-room or dining-room, without fear of any mess from water or soil coming through the base of pots. The Fibre is perfectly odourless, and clean to handle. It is specially and carefully prepared by ourselves for this purpose and we strongly recommend all our correspondents to try a few various bulbs in this way if they have not yet done so.

The bulbs are potted the same way as in ordinary soil just showing theirs tops. It is **not necessary** or **desirable** to press the fibre **tightly**, otherwise the roots do not work freely, and bulbs have a tendency to push themselves upwards. Once potted, they require hardly any attention, only **great** care should be taken to keep the compost moist, but on no account must it be **sodden or too wet.**

If **once** allowed to become dry, even for half a day only, the pores of the roots close up and the bulbs in many cases go blind and are ruined. This happens more frequently with Tulips than Narcissus, the tulip roots being finer and therefore more liable to injury.

When the bulbs have been potted, vases or jars should be kept in a **dark** airy cellar or room nothing is worse than a confined cup board or a small, airless dark room.

When the bulbs have grown about one inch, they should be brought into more light, and the vases or bowls can be placed in the window, taking care. of course, to keep them from frost. **All** bulbs can be grown in fibre but in Hyacinths we have a special size which is best for this way of cultivation.

We are offering ten distinct shades at $ 35.— per 1000. Miniature Hyacinths grow freely and look very nice in bowls, mixed colors should never be used as they come to uneven.

The fibre is carefully mixed and packed by ourselves and shipped dry so as to cost as little freight as possible.

A case containing about 15 bushels costs $ 3.— a smaller size containing about 7 bushels is charged $ 2.— for.

P. S. Some of our rivals are using coconut fibre for this kind of cultivation, but this does not by any means give the same satisfaction, our fibre being the original plant fibre and therefore far superior to this imitation.

1913.

WHOLESALE ONLY.

CATALOGUE

OF

DUTCH BULBS AND PLANTS

OFFERED FOR SALE BY

J. J. Grullemans & Sons,

Royal West=End=Nurseries

ESTABL. 1854.

LISSE-HOLLAND.

All former quotations are annihilated by those of the present pricelist.

PRINTED BY P. J. MULDER & SON, LEYDEN (HOLLAND).

Gentlemen,

We have much pleasure in presenting for your kind perusal our Bulb-Book for 1913, the **largest** and **most complete** issued by any Dutch Firm.

The continued incrase in our business, proves that our efforts to have orders executed with all possible speed, and with best class bulbs and plants **only,** are successfull.

As to Firms, we did not yet deal with, we shall be glad to furnish them with such references as will give them sufficient confidence, that their orders, if placed with us, are in good hands.

Recommending our bulbs to the **Wholesale Trade** we wish to assure our friends that they will be thoroughly gratified when receiving our goods.

We have put our prices so that in most cases you will find them correct. Should you however have a lower offer from any other reliable Dutch House, we shall be glad to be informed, and we promise to do all in our power to meet you.

Lisse, as you may be aware, is now the leading centre of the Bulb-Trade.

Trusting we may be favored with the continuance of your esteemed commands.

Yours respectfully,

J. J. GRULLEMANS & SONS.

COMPLAINTS.

No complaints can be entertained unless made on **receipt** of the goods, and we cannot take any responsibility as to their flowering which greatly depends upon their treatment, but every precaution is taken to send nothing but first sized well matured bulbs such as will under ordinary circumstances produce the very finest flowers and give the utmost satisfaction.

Early orders are respectfully solicited.

Special terms of payment.

All accounts are payable on delivery of goods.

In ordinary cases however payment will not be required until 1st March following delivery, but an account must be paid forthwith should Messrs. Grullemans & Sons deem it necessary to demand immediate payment.

ACCOUNTS, PAID WITHIN.

1 month from date of invoice are entitled to $5^0/_0$ discount.
2 months „ „ „ „ „ „ „ $4^0/_0$ „
3 „ „ „ „ „ „ „ „ $3^0/_0$ „

☞ *Accounts not paid within 12 months after date of invoice will be disposed of by draft at sight.*

Orders from unknown correspondents must be accompanied by satisfactory references or one-half the amount of bill. Balance of amount to be paid on arrival of goods, for which $5^0/_0$ *discount on the full amount is allowed.*

Terms.

1. **Prices** are quoted nett and subject to market fluctuations.
2. **All goods** travel at purchaser's risk and expense from seller's stores.
3. **Unless** directions to the contrary are given, insurance will be provided at purchaser's costs.
4. **Packing** and cases will be charged at cost-price.
5. **J. J. Grullemans & Sons** give not warranty, express or implied, and will not be in any way responsible for the results of planting or forcing of any bulbs and roots they send out: they guarantee all varieties to be true to name and description.
6. **If at the time** of shipment the buyer has not yet settled his last year's account, sellers reserve to themselves a right to cancel all arrangements for new transactions.
7. **We emphatically** decline to deliver at erroneous prices, figuring in this catalogue, that might have escaped our notice.
8. **By accepting an order** we never deem ourselves obliged to supply all items in full, as this greatly depends upon the results of the crop.
9. **By placing orders,** buyers are considered to agree with those terms, even if they differ from the laws of their country.
10. **No cancelations or alterations** will be accepted later than April first.

NOTICE.

25 roots will be charged at 100 rate.

250 at 1000 rate.

Telegrams should be addressed:

Grullemans, Lisse, Holland.

If wiring, goods will leave with the next steamer from Rotterdam or Amsterdam.

A new, rare, and meritorious Variety for 1913.

We can now offer a splendid novelty in **double Narcissus**, namely the

Bicolor Horsfieldi flore plenum

a variety which we can recommend our friends with safety and confidence as exceptionally showy and distinct. Price, at present, may prevent a large sale, but if this comes down, we are sure it will take the lead amongst the double Narcissus as a cutflower.

Price per doz. $ 1.— per 100 $ 8.—

Cable words.		p. 100 $ ct.	p. 1000 $ ct.

Double Chrysanthemum flowered Anemones.

The Chrysanthemum flowered Anemones are absolutely distinct from the ordinary double Anemones, the petals are all of the same form and beautifully imbricated, the plants are of very large size and produce an immense quantity of grand flowers. Highly recommended.

Growing Anemones and Ranunculus in cold climates.

Anemones and Ranunculus should be kept in a dry warm place so that they remain hard and dry during the winter months, and when planted in about the end of April when all frost is out of the ground, they will bloom well. But when planted in the fall which is generally done, 80 or 90% is always lost through frost. Anemones and Ranunculus roots or bulbs can be kept for two or three seasons in a dormant condition without doing them any harm.

Paeonia flowered Dahlia's.

This new race of Dahlia's firstly displayed at a Royal Horticultural Meeting London 1906, created quite a stir. Flowers are large and well expanded and of a most graceful form, and we surely do not exaggerate by saying they are the finest Dahlia's ever offered to the public.

	p. 100 $ ct.
Andrew Carnegie (1908). Different from the others in form and habit, strong stems. Very useful for decorative work. Color salmon pink with bronze shading, height 4 feet	12.—
Baron G. de Grancy (1906). Beautiful habit, flowers on long stems rising above the foliage, white color; floriferous height 5 feet	7.—
Bertha von Suttner (1908). Blush mauve with a rosy salmon tint. Of compact and sturdy growth and very floriferous. Flowers often measuring 8 inches in diameter height $3^1/_2$ feet	12.—
Dr. K. W. v. Gorkum (1806). Blush white, very large pointed flowers height 5 feet	8.—
Duke Henry (1906). Large purple crimson, very decorative, 5 feet	8.—
Geisha (1908). A wonderful scarlet and yellow flower, a variety of great merit, height 5 feet	10.—
Germania (1908). Bright glowing crimson, very attractive, height 3 feet	7.—
Glory of Baarn (1806). Large flowers of a light rosy tint, height 4 feet	9.—
Glory of Groenekan (1907). Extra large flower, orange yellow, height 4 feet	9.—
Hollandia, bright rose	12.—
H. Hornsveld (1907). Enormous large flowers of very elegant form, soft salmon color, height 4 feet	8.—
Hugo de Vries (1907). A dwarf variety, orange buff flowers, strong stems, typical forms, height 3 feet	8.—
Kaiserin Augusta Victoria (1907). Primrose color, bright flower, height 3 feet	8.—
King Edward (1908). Large flower, purple crimson, very fine height 6 feet	18.—

Cable words.		p. 100 $ ct.
	King Leopold (1906) The best yellow color, varying from creamy yellow to white. Flowers very large and on long stems, height 5 feet	8.—
	La Riante (1907). Nice pink flowers, long and strong stems, height 4 feet	7.—
	Mannheim (1908) Very fine form on long strong stems; orange soft stone red, height 6 feet	10.—
	Merveille (1907). Rosy salmon, nice form, height $4^{1}/_{2}$ feet	9.—
	P. W. Jansen (1907) Rosy salmon with a dash of yellow, height $5^{1}/_{2}$ feet	8.—
	Queen Alexandra (1908) Elegant flower. Sulphur and white. Height 4 feet	10.—
	Queen Emma (1906). Rosy pink flowers, suffused with yellow and white. Height 6 feet	8.—
	Queen Wilhelmina (1906). Pure white, elegant form; floriferous Height 4 feet	8.—
	Sneeuwwitje (**Snowqueen**) (1907). Pure white, strong plant. Height 4 feet	8.—
	Solfaterre, scarlet, yellow center	12.—

Iris Alata or Scorpioïdes.

Cable words.		p. 100 $ ct.	p. 1000 $ ct.
Mot	**Strong forcing bulbs,** extra selected	1.80	16.—
Mothen	„ „ „ all flowering	1.20	10.—

For early forcing no better, it flowers here in the open in January so that nobody will find it difficult to have it in bloom beginning of December or even earlier.

Flowers are of a lovely deep sky-blue color, with a few light and dark spots in the center. As other Irissus are not to be had at that time of the year it should prove very profitable. As a pot plant, we advise to place 3 bulbs in each and when forced in this way they will be of great value to flowershops.

Cable words.		p. 100 $ ct.

	„ **verticulata**	4.—	

NOTICE.

The Dutch forcing crowns we guarantee to give the greatest satisfaction if forced **after** January.

We must advice our customers, to order early and to lay the crowns in immediately, roots well covered, leaving the crowns fully exposed to the air, so that the frost can freely touch them.

After this treatment the flower will equal, in size and quality, those produced by the best of German or Berlin Crowns.

Nicet

Montbretsia Speciosa.

This **Montbretsia** is certainly now one of the leading varieties, color bright orange red, on very strong stems. We dare say there is even amongst the more expensive varieties **no better**. If cut and placed in water, flowers will last over a fortnight.

Having cultivated a large stock of this grand variety, we are in a position to offer it very reasonable.

Price per 100 —.50 per 1000 4.— per 10.000 30.—

Cable words.			p. 100 $ ct.	p. 1000 $ ct.
